State of Oregon (
) SS
County of Clatsop(

On this fifteenth day of March in the year of our lord one thousand Eight hundred and sixty five before me W.W. Parker, a Notary Public , duly sworn and appointed under the great seal of the state of Oregon, personally came John M. Shively and Susan L. his wife ,personally known to me to be the individuals named in and who executed the foregoing conveyance and acknowleged that they executed the same and the said Susan L. Shively on examination apart from her husband acknowledged that she executed the same for the purposes therein named without fear or compulsion of any one. In witness whereof I have hereunto set my hand and affixed my Notarial Seal the day and year last written above.

(seal) W.W.Parker
Notary Public

Know all men by these presents : that one John M. Shively of the town of Astoria, in the county of Clatsop and the state of Oregon and Susan L. his wife, in consideration of the sum of one dollar to us in hand paid by the Board of Trustees of said Town of Astoria the receipt whereof we do hereby acknowledge, have bargained, sold and quitclaimed, and by these presents do bargain,sell and quitclaim, unto the Board of Trustees, and their sucessors for the use and benifit of said Town of Astoria, for ever all our and each of our right, title, estate and claim, both at law and in equity as well in possession as in expectancy of, in, and to all that certain piece or parcel of land, situated in the said County of Clatsop, and bounded as follows to wit: Commencing at a point where the southerly line of the Town plat of Astoria, as mapped and recorded by John M. Shively in the Year A.D. 1847. Recorded in Clatsop County records in 1854, on page 84,85,86,87, intersects or if continued Westerly would intersect the Common boundary line between the two land claims known as that of the said J.M. Shively and that of John McClure which said McClure claim is now owned by Cyrus Olney, in the said County of Clatsop and running thence on said common boundary line southerly forty rods: thence at right angle easterly, twenty rods, thence at a right angle Northerly forty rods: thence at a right angle westerly twenty rods to the place of beginning - making five (5) acres of land, with all and singular the heritaments and appurtenances thereto belonging, or in any wise appeartaining. Said land to be used for the purpose herein before specified, - to wit for a Cemetery or burial ground, and in case the said land herein conveyed and granted, shall not be used for said burial purposes, the same shall revert the grantors named in this conveyance, or to their heirs in due course of law.

4.

And be it further known that this conveyance is made and executed in compliance with and as in fulfillment of, a certain agreement made with the said Town of Astoria and James Welch, by the said Johm M. and Susan L. Shively in about the year 1860 whereby the J.M. and Susan L. Shively engaged to convey by good and sufficient deed to the said Town of Astoria certain five acres of land, situated as herein before set forth, for cemetery purposes - as is more fully set forth in said agreement.

In witness whereof we have hereunto set our hands and seals this fifteenth day of March, in the year Eighteen hundred and sixty five (1865).

In presence of witnesses

J. M. Shively (seal)

Recorder

BACKGROUND AND HISTORY

This project began as an index for the Hillside cemetery,also called Hilltop,Pioneer and City cemetery. It is located between Niagara and Madison Streets, and 14th and 15th Streets in Block 93 of Astoria, Oregon. Sexton records cover only a six year period, 1880 to 1886. The first burial could have occured around 1848, the last in the early 1900s, with as many as 700 graves here.

It became obvious as our research continued that some of the burials found could have taken place in one of three other locations. Rather than reject or lose the information gathered it is included here with the designation "pb", for probable, or "uk" for unknown. We may be able to document the actual site at some point in the future, but now we feel it is important to get the information in print. The other locations are:

1. Immediately east of the old City Hall, now the Heritage Center. According to an 1925 newspaper article this lot with the graves, which were the earliest in Astoria,was filled in years before. There is probably 12 feet of fill over them. According to Alta Schalk Weir,a local historian who made a list of the cemeteries in the county several years ago, this was the first white cemetery in the Northwest and was connected with Ft. Astoria and later Ft George. According to the journal of the Astor party, John Day was buried here and later McTavish. McTavish was reburied at the Ft. George site, although an 1887 news article makes it appear he was once buried in the hillside cemetery.
2. Tax lot 55 in Shively's addition, between Irving and Jerome, 14th and 15th streets. Houses ring the inner area of trees on this block in the center of town. It was used before 1850. Some of the graves were moved to the Hillside Cemetery and lot 55 continued for use for pauper burials.
3. Holy Innocents cemetery near 34th and Grand Avenue. It was located in the Holy Innocents Episcopal Church yard. This church is now gone. Members of the Adair family were buried here. It is possibly covered now by the parking lot for the Norwegian-Luthern Church, on the south side of Grand before Harrison Circle, a few blocks away.

An early Astoria newspaper carried the following article on April 14,1887:

> In the hillside cemetery is a grave, probably the oldest marked grave north of San Francisco. The memorial is a sandstone slab on which is recorded that he who sleeps beneath bore the name McTavish and that he was buried there in 1814.

An 1890 visitor also reports seeing a McTavish stone in Hillside.

Re-interrments were quite common in this time period. They moved the remains each time the family moved. Some were as mobile as when they were alive. Remains were brought from abandoned cemeteries and family plots to be re-interred at Hillside. Remains were moved as other cemeteries such as Clatsop County (now called Oceanview) and Greenwood opened. The hillside site was evidently used as a cemetery before it was officially deeded by James Welch to the city in 1865.

"Cumtux", the Clatsop County Historical Society quarterly,Vol. 4, No. 1, page 24 says;

> One of the cemeteries at that time was the old Shively"s burial grounds at the top of one of the hills between 14th and 15th streets. After taking the boat from Upper Astoria to the foot of 14th street, the only way of getting the remains up the hill was to carry them. There were no streets, only a trail.

Cumtux Vol. 4, No.2,1984,page 21;

> At what is now 14th and Lexington the trail became steps, rude things dug out of clay to reach the cemetery steps at Madison Avenue.

> 12 Feb 1866
> The town Recorder gives notice that all persons who have purchased lots in the new cemetery can have their deed now by calling at his office at the Court House, and all others desiring to secure lots will do well to make their selections soon, and get their titles while he is prepared to issue same.

The Daily Morning Astorian ran a line among the news beginning in May of 1876 and continuing for several issues.

> When will the road leading to the cemetery be made passable ?

> 9 June 1877
> A five acre tract of land deeded to the city for the purpose of a potters field, many years ago, has been ordered surveyed and improved for the purpose for which it was ceded.

Confusion of written records reigned even in it"s early day.Daily Astorian, 30 Sept 1877 carried the following under "Official Notices". It ran in each issue through December 1877.

> Cemetery Notice
> The undersigned Sexton of the Astoria Cemetery in view of the fact that the Cemetery Grounds are now permanently located wishes all persons owning lots in the grounds to report the number and block to him, also all persons who, have buried friends in the grounds at any time are requested to address him through the Post-office or to call upon him at his office and furnish him with a list embracing the name of the deceased,age and

when buried, the lot and block upon which the burial was made and such other information as will enable him to bring order out of chaos.

F. Ferrell,City Sexton

Any information he might have collected seems to have been lost.

(DA)9 Oct 1887

Cemetery Work

Mr Stewart has been awarded the contract to put a handsome stone coping and iron railing around the lot in the cemetery where the remains of James Welch are deposited. The stone coping will be thirty inches in height , surmounted by an iron railing and will be decidedly the handsomest work on the grounds. We are glad to hear of Mr. Stewart's sucess in these matters and his presense among us will be a benefit to all as he takes great pains to make his work attractive.

This probably refers to the J. Stewart who ran an ad in the paper as a stone and marble cutter. In January of 1879 he was appointed to act as temporary sexton. There is a J.Stewart who is buried in Hillside cemetery.

Reappearing ad (DA) in March of 1877:

Parties owning lots in the City Cemetery can have them kept clean for a small sum. Tombstones cleaned, also,as good as new, by a new process, no matter how black and rusty. Fences repaired and painted by the sexton, opposite the cemetery.

M.L. Smith

(DA) 15 Oct 1885

The contract for burying bodies who die while in the county charge were yesterday let to J.C. Ross for $13.50 per interment. It would appear to be a very low rate when compared with ordinary funeral charges.

(DA) 21 April 1885

Some time ago a fine headstone was place over a grave of a chinaman in this city cemetery and on Sunday Sexton Conley discovered that it had been broken to pieces by ghouls who ought to be proscecuted. Whether chinaman or caucasian the spirit that actuates respect to the dead is the same and common regard for poor humanity finds fitting emblems in tablet or head stones. The city sexton will pay $5 to anyone who will furnish information leading to the arrest of the party who did it. He deserves to be laid on the heels in the deepest dungeon in the balliwick.

(DA) 9 Mar 1889

James Gill intends to lay a walk up to the cemetery which will be an accomadation, as it is difficult to get

to the cemetery in wet weather. Those interested can help it along with a small contribution when he calls or leave it at Gouch Clinton's cigar store.

The above articles indicate care was given to keep the area in good condition. However, by 1890 comments begin to change tone.

(DA) 14 July 1890

Some of the monuments in the hillside cemetery are crumbling into dust kindred with that they are intended to commemorate.

A writer from Alameda, California describes a visit to the Hillside cemetery in a California paper on 18 Aug 1890. It was reprinted in the Daily Astorian on 8 Sept 1890.

Taking advantage of the quietude of a Sunday after attending church I strolled up to the old burial grounds of this city. Like some other cities of the dead, it is located on the summit of a hill on the southside of Astoria , about 250 feet above the tide water and covers about four acres of ground. From time immemorial at least from the day of John Jacob Astor's expedition - it has been a resting place for those who have passed the border line of time. Later on, in municipal history, the city ratified the sacred character of the spot and became it's legal guardian; but it appears a guardian without heritage to appropriate to the care of it's ward. Hence, there is a lack of those combined features which impart interest and beauty to the locality, and which draw around the shadows of death that serene and solemn contemplation which involves the spirits of the departed, that they may commune with the souls of the living.

This plot covers an area about four acres, and is enclosed by a post and rail fence of three boards. About half of it is laid out in rectangular lots, which are enclosed by pickets. They are all of recent structure,that is to say, within twenty years, but without exception, the entire spot is covered with a dense growth of ferns (pteris aquiling) which in Alameda is a harmless little plant from one to two feet high, but here, and in most of Western Oregon, covers the ground like a wheat crop and grows from six to fifteen feet high, completely hiding the soil and destroying the easy progress of any pedestrian.This cemetery will average a crop about four feet high. My anticipation of finding some pioneer graves were not realized owing to the fact that the oldest , having had wooden headboards with painted inscriptions had completely decayed, leaving nothing in many cases but mounds of earth to indicate the spot of burial. Who they were whose bodies have thus returned to the mother earth, and what hardships and trials they endured, what vicissitudes they encountered, what sacrifices they made in laying the foundations of the common wealth, no human voice can tell. All we know is that they rest from weary toil, "unwept, unhonored and unsung."

The oldest inscription observed are of

D.M.Tavish,*age 12, (newspaper error ?) a pilot who was drowned in crossing the Columbia river in May 1814, Capt. Meloy, of New York, 36 years old who died in 1854, John McCounell,32 years old, drowned in the Columbia river in 1855, James Robinson, 40 years old pilot on the Columbia river, 1858, Esther A. Stewart, born in Port Gibson, Miss., wife of Lt.Col. I.S. Stewart, U.S.A., age 38 years, died in 1879.

It may be owing to the character of the soil but there is scarely a grave that shows any indication of care or persistant interest on the part of surviving relatives. Relics of flowers, seared and blackened by decay, rose bushes struggling for life fairly smothered by ferns, here and there a shrub , anxious to live, but ready to die remind one of the poet's caustic satire, where relatives "weep for an hour, perhaps, they mourn a year," after which the dead are forgotten and the pleasures and follies of life pursued, till the inexorable angel claims another victim.

It is but proper to state that burials in this cemetery have about ceased, the city having provided another plot across Young's bay,westward, where the dead are conveyed by steamers which ply in that direction.

This condition of burial places which is by no means peculiar to Astoria, strongly suggests the system of cremation as combining all the factors involved in the question of the disposition of the dead. The final result of burial is to reduce the remains to it's inorganic constituents by cremacausis or a gradual burning or oxidation of perishable portions, a process which requires years to accomplish. The same result is attained by cremation in a few hours, by which all doubt is removed of being buried alive and all possibilities expelled by propagating infection and disease among the living.

W.P.G.

(DA) 19 May 1897

A Beautiful Scene

- marred by the unsightly appearance of the Old Cemetery, - lovely scene from the top of 15th st. hill - (the writer elaborates)

But look to the left - a cemetery - admiration loses some of its ardor and the spectator seems to experience a feeling of sadness. Looking closer, there is seen sticking out of the broken ground a coffin. A cold wave strikes the admirer of nature, who imagines that he sees a skeleton; and sure enough he sees something resembling it very much ---not one,two,no three,four, six. He sees enough horrors and Chinamen too! At once the enthusiast feels as though a cyclone has hit him and is unable to recall the beauties of the other side of the picture. His afternoon pleasures are spoiled.

In 1897 Judge J.Q.A. Bowlby spearheaded a drive to remove all of the graves. Some people were outraged at his actions. But legal action was started.

Petition to the Hon. County Court of Clatsop County, Or. The undersigned Auditor and Police Judge of the city of Astoria acting by virtue of a resolution duly adopted

by the Common Council of the City of Astoria hereby petition your honorable body to vacate all of that portion of the City Cemetery located at City in the County of Clatsop, State of Oregon recorded in plat book No. 2 at p. 15 and 16 thereof as follows to wit: All that portion of the City Cemetery at Clatsop lying North of a line drawn South of 74 degrees 29 minutes West which point is 17 degrees 17 minutes W. 689 ft. from the SE corner of said cemetery as the same appears on record on Book 2, pages 15 and 16 of plats of Clatsop County. The city of Astoria a municipal corporation is desirous of vacating said portion of said cemetery in order to file a new plat thereof. The vacation herein provided for does not interfere with any of the lots heretofore sold in said cemetery.
Notice is hereby given the City of Astoria by H.E. Nelson auditor and Police Judge, will ask the County Clerk to vacate said plat of the city cemetery located at Clatsop in Clatsop County on Saturday the 12th of June 1897, of the regular term of said Court. Any person interested is hereby notified to appear and show cause, if any there be why the prayer of the petitioner should not be granted. By the Order of the Common Council.
H.E.Nelson

A Mr Pohl reported it would cost $15,000 to move all the bodies. The inability to locate and secure permmission from decendants, and other opposition prevented any action. A suggestion was made that the area become a memorial park. This would have required legislative action,so nothing was done. Occasion burials were still taking place, but the area continued to deteriorate.

Alta Schalk Weir's listing of local cemeteries conflicts with some of the stories, but she comes to the same conclusions.

Hilltop Cemetery is located at the top of one of Astoria's hills. It was given to Astoria by the first postmaster west of the Rocky Mts.,John Shively. It was given with the understanding that if it should ever cease to be used as a cemetery it is to revert back to the Shively estate. Mr Shively took a donation land claim in what is known as Astoria proper, or including the land of the original fort. He came to Astoria in 1846. There was an old cemetery but for some reason the graves from that site were removed to Hilltop Cemetery. There is one grave marked 1853 in this cemetery, but it is the thinking of the old timers that this is one of the graves that were removed from the one on 14th and Irving. My uncle was buried there in 1868 and he was not the first by any means so I should say the first were buried there about 1860. Shively, his wife , her parents are buried there in a tomb. Also many other old settlers,some of state and county importance. Many bodies have been removed as the city neglected the site shamefully. They wished to recover the property as a building site, but cannot trace enough of the decendants to remove all the bodies. It is open if one crawls through the brambles to see anything. During the Lewis and Clark Sesquicentennial(1955) the city cleared part of it at least by the Shively tomb,upon the insistance

> of many of our historians. The records I am sure are in the City of Astoria archives. To me this is the saddest of all our county-located cemeteries and it has been my personal hope for some time that something could be done about it.

In 1958 a map was made of the locations of the gravesites. There are many blank areas and question marks showing that a great deal of knowledge had already been lost. Many tombstones and markers had deteriorated or were destroyed by vandals. Some were removed when the remains were moved to other cemeteries. Some were removed by decendants to prevent further vandalism and may still be in the basements or sidewalks of homes in the area.
In 1961 Robert Chopping,KAST radio station manager, headed a group of volunteers who cut brush and cleared berry vines. They then petitioned the city to provide funds in their budget to maintain the area.
The present city block may be less ground than the cemetery encompassed at one time.
Astoria Granite Works officials re-set some of the remaining stones. There is a chance that some could have been re-set in the wrong place.
Dennis and Richard Thompson donated a granite marker made of the same red Finnish granite imported by their father when he established Astoria Granite Works in 1917. It was set in the center of the cemetery in January 1969. The text reads:

> Deeded by James Welch to Astoria on April 22, 1865. By 1891, 498 burials were recorded. There were also numerous unlisted interments. Bodies from abandoned cemeteries were brought here. Many graves and markers were later removed by families. Use was discontinued around 1900.

In November of 1969 a hand carved sign made by Bumble Bee Seafoods was erected over the entrance, by the city, marking it as the Pioneer Cemetery. It is now regularly mowed and maintained.

Research is continuing. Corrections will be in the next edition. A compilations of obituaries and death notices is in progress.

This letter was given to me by a member of the Clatsop County Historical Society.

A short historical background for the cemeteries in and around Astoria in Clatsop county. The records of the meetings held by the Trustees of the Town of Astoria which later became the Common Council of the City of Astoria begins with the date June 1856.

> It is indicated in these records that prior to this date and also subsequently thereto Block 55 in Shively's Addition was used as a burying ground probably for both private and public burials. On or about March 1865 this block was donated by deed to the Town of Astoria by J.H.Shively and wife Susan Shively. However it appears that the plot of ground was never designated officially as a public burying ground for the Town of Astoria and several attempts to regain legal title to the lot were made by the donors. Reference is made in

several instances to requests by the donors and others to have the bodies removed therefrom into Block 93 which later became the official City Cemetery. However it is also indicated that a Potter's Field was laid out and used in Block 55 and also that bodies were actually removed from Block 55 to Block 93.

Another prospective site for a City Cemetery is recorded July 7, 1864 showing that the Town Board took official action to accept the offer of J.H. Shively to give to,the Town of Astoria two acres of land "On the West line and dividing ridge between Astoria and Young's River of the said Shively's Land Claim" without conditions, and recommended that the Town purchase the balance necessary to make a lot of suitable size for a Cemetery. There is no record that the tract was ever used as a burying ground.

Under date of April 22,1865, Block 93 Shively's Astoria and deeded to the Trustees of the Town of Astoria and presented to the Town Meeting of April 24, 1865 with the following notation in the minutes : "A deed from James Welch for Block 93 in Shively's Addition for the purpose of a cemetery for the Town of Astoria was presented, and a motion was made and passes to accept in the amount of $500, for the Block and the ncessary clearing,improvements, fencing and roads followed immediately.This cemetery was known as Astoria, or City Cemetery and later referred to as Hillside Cemetery.

There are frequent references to the Town Meeting proceedings to Cemetery matters between the years 1865 and 1876 but no account of burials for that period of time is in the posessions of the City of Astoria at the present time. There are records of burials from the year 1876 to 1893 with the exceptions of years 1890 and 1891 but they are woefully lacking in giving adequate and vital information. In many instances no date, no lot and block, no name, not even the cemetery is mentioned. There is also no record of burials from 1893 to 1903, at which time until the present time the records have been well kept and are complete, and refer to burials in Oceanview Cemetery. The records show that Cemetery Matters were never under direct supervision of the Town Trustees and later the Common Council until Jan. 1923 at which time the managerial form of City government was adopted.

Excerpts of Ordinances pertaining to this cemetery;
Mr. Brewer A. Billie November 7, 1958

Ordinance No. 2284-1897 - Prohibited further burials in city limit of Astoria

Ordinance No. 2341-1898 - granted privilege of exchange lots in Hillside for lots in Oceanview

Records show that during the years approximtely 1883 to 1893 burials were being made in both Hillside and Clatsop Cemeteries.

The names Clatsop and Oceanview are apparently synonomous as far as City records are concerned.

On the basis of the records available I have traced

burials made in Block 93, Shively's and find approximately 498 as identifiable, and there have been perhaps, a dozen removals there from.

In as much as no burials were recorded for the period from 1865 to 1876 and in the years 1890 and 1891, which is approximately 13 years, it is obviously certain that there would be many more burials in Block 93 than the 498 indicated perhaps as many as 200, or a total estimated number of around 700 burials still remaining in the Old Cemetery.

Block 93 consists of 32 Blocks of 6 lots each or a total of 193 lots. These lots run for the most part in dimensions of 11' x 18', which could make four graves each. The capacity of the entire block therefore could be about 768 graves.

Yours Truly,
O.K. Atwood
(former City Auditor-Treasurer,
July 1, 1923 to June 30, 1954)

Ordinance No. 367, defining the duties and fixing the Compensation of the City Sexton, was read the third time, and passed. Following the Ordinance;

Ordinance No 367 - an ordinance defining the duties and fixing the Compensation of the City Sexton,
and the manner of burying deceased persons.
The City of Astoria does ordain as follows:

Sec.1. It shall be the duty of the city Sexton to take charge of and keep in repair the City cemetery, and to sell lots therein as provided by the ordinances of this City. He shall keep an accurate record of all the lots or Blocks sold by him and to who sold,of the names and ages of all persons interred therein and the date of interment. Also of the amount of money raised through the sale of lots or otherwise all of which he shall report to the Common Council on the first Tuesday of every month.

Sec 2. It shall be the duty and exclusive privilege of the City Sexton to dig or cause to be dug, all graves for the purpose of interring deceased persons in said Cemetery and he shall receive therefor the following Compensation that is to say for every double grave excavated and filled by him he shall be entitled to receive the sum of seven dollars, for every single grave to be excavated and filled by him he shall be entitled to receive the sum of five dollars which sum shall be paid by the person or persons ordering the work done or the estate of the deceased.

Sec.3. The depth of every grave in which an adult is interred shall be at least five feet from the surface to the top of the coffin, and every grave in which the body of a child under eight years of age, shall be interred shall be a depth of four feet from the surface to the top of the coffin.

Sec.4. Upon the receipt of any money for the sale of Cemetery lots or otherwise belonging to the City of Astoria, it shall be the duty of the City Sexton to pay the sum unto the City Treasurer immediately and take from the City Treasurer duplicate receipts. therefor one of which he shall immediately file with the Auditor and Clerk of the City and the other he shall annex to his report to be sent to the Common Council.

Sec. 5. It shall be unlawful for any person or persons to inter any deceased person or persons in any other portions of

the City of Astoria than within the limits of the City Cemetery and any person or persons being convicted of doing so before the Police Judge of the City of Astoria shall be fined not less than twenty five nor more than one hundred dollars or be imprisoned in the City Jail not to exceed twenty days until such fine and costs of actions are payed.

Passed the Council March 9th 1880

Explanation and Abbreviations

There may be several listings for the same person and the information may disagree.(spelling variations) Information came from various sources and is designated in the "SOR" column. Cause of death is seldom included. Since drowning was a common cause of death, when dates disagree greatly, one date may be the day the death was assumed to occur, the other the day the body came ashore or the funeral held.
There are three different lists ; one by alphabetical name, one by date and one by location. Check top of each column.

The pen and ink sketches are not drawn to scale. They are included only to indicate the varitey and condition of the few tombstones that are left at the time of this publication.

The dates are converted to all numbers.

W.S. FERRELL
BORN
Oct 17, 1855
DIED
AUG. 28 1881

Gone before us, O our brother
To the spirit land
Vainly look we for another
In thy place to stand

N. FERRELL
BORN
APRIL 20, 1861
DIED
Oct. 19, 1881

I saw the angel in his net him there
The gates of the City I could not see
over the river, over the river
my darling stand waiting to Welcome me

F. FERRELL
BORN
May 29, 1820
DIED
Jan 1, 1878

Rest in Peace

J.M.
1987
